It gave a general protection fault. I dont have two days spare to do that. Its just lucky that Step 7 will run without authorisation, otherwise thats what I may have ended up having to do to fix my problem. My system wants to format the card like it was a memory card. I have the software installed and it seems to work correctly. I have Simatic Step 7 with Service Pack 1. Since the card isnt working right I cant use the XP system to connect so use my old 98 laptop most of the time. You are just reinstalling Windows. So that, I contacted the support of siemens worldwideweb. But

nowadays, no response for this subject. Could you please send me a detailed information or installation file for XP operating system. <http://ecogestval.com/userfiles/file/food-engineering-laboratory-manual.xml>

MY Config WinXP Compaq EvoN800v NoteBook 512MB RAM and CP5511 card ordering Number C79459A1890A10 Best Regards, Im looking forward to hearinh from you as soon as possible Suat OCAKCI The version of Step7 is 5.2 with Sp1. You can find the compability table of Step7 versions from siemens support pages entry id 8250891. Br, TS You might try disabling your builtin ethernet card. Always connect the dongle to the LAN adapter before inserting the LAN adapter into your computer. There is a thred about this on Siemens support page and there is a description on how you can change the resources using an.inf file. I just updated the inf file but a colleague of mine had to remove Step7 completly even in the windows registers a regular uninstall wont help. Information about this i also available on siemens support page I think i got the file and description at work somewhere if you dont manage to find it. The third can be an update.D 3. Be patient. To download all the archives you can spent one week.cool 4. Put in your directories enough archives to be downloaded for other eMule users because eMule is a credit debit, you help me, we help you. Good luck! I have solved my all problems using Simatic Softwares and hardwares such as CP5511 with Operating System WinXP.Another way, is more complex. Find the related files and change every accessing options of these files. All users can access these files for solving the problem. I would prefer to do first choose to solve the problem.
